

Main Features

- Bottom part of well is removable for an easier access to the evaporator.
- This device has large dimensions of 690x1365x1000 mm.
- It operates at a voltage of 230V, 1N phase, and 50/60Hz frequency. With a power consumption of 1.1 kW.
- Cooling from back.
- Tempered side glass.
- 2 levels to display the food.
- The device provides cooling with R290 gas and maintains temperatures between + 4 / + 8 °C.
- Standing out with a sound level of 55 dBA, the device weighs 150 kg. It is easy to use thanks to its digital control system.
- It has a plug compatible with British or European standards, with a length of 2000 mm.

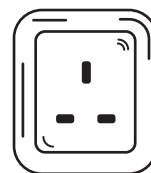

Technical Information

Dimension : 690x1365x1000 mm
 Voltage : 230V - 1N ph - 50/60Hz
 Power : 1.1 kW
 Gas : R290
 Temperature: + 4 / + 8 °C
 Sound Level : 55 dBA
 Weight : 150 kg
 Control : Digital Controller
 Plug Type : UK or EU
 Cable Length: 2000 mm
