

Main Features

- This device operates at a voltage of 230V and 1N phase 50/60Hz, with a high power consumption of 1.1kW.
- Cooling system operates with R290 gas and the temperature range is between +4°C and +8°C.
- The sound level is set at 65 dBA.
- The device has a significant weight of 142 kg. It features a digital control system for ease of use.
- It has a plug compatible with British or European standards, with a length of 2000 mm.
- Its dimensions are 775x750x1450 mm. These dimensions make it easy to place the device in the usage area, but it requires a large volume.

Technical Information

Dimensions : 775X750X1450 mm

Voltage : 230V - 1N ph - 50/60Hz

Power : 1.1 kW

Gas : R290

Temperature: + 4 / + 8 °C

Sound Level : 65 dBA

Weight : 142 kg

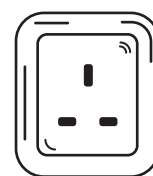

Control : Digital Controller

Plug Type : UK or EU

Cable Length: 2000 mm
