

Main Features

- It operates in the voltage of 230V and 50/60Hz, 1.2 kW of power.
- The heating capacity is quite high and can operate up to +110°C.

Structural Features

- Its body is made of high-quality AISI 304 stainless steel.
- Heating surface Black Ceran Glass.
- The control system is provided digitally, making it user-friendly.
- The device weighs 26 kg.
- It has a plug compatible with British or European standards, with a length of 2000 mm.
- The dimensions are only 52x620x1420 mm. These dimensions facilitate the placement of the device in the usage area and meet the need for large-volume devices.

Technical Information

Dimensions : 52X620X1420 mm

Voltage : 230V - 50/60Hz

Watts : 1.2 kW

Heating : + 110°C

Sound Level : 0 dBA

Body : AISI 304 Stainless Steel

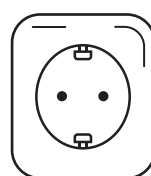

Control : Digital Controller

Weight : 26 kg

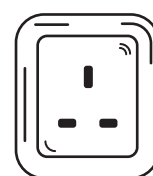

Glass : Black Tempered Ceran Glass by Schott

Plug Type : UK or EU

Cable Length: 2000 mm
