

Main Features

- The lighting feature is provided by two lamps, each with a 3000K temperature and 722 mm in length.
- The glass section is made of 6 mm thick tempered clear glass, measuring 250 mm in width and 1250 mm in height.
- The profile dimensions are 30 mm in width, 40 mm in height, and 1.5 mm in thickness.
- The profile color is applied with electrostatic powder coating on DKP, and the color can be customized upon request.
- The device weighs 18 kg. The plug type is compatible with British or European standards. Its dimensions are 425x1350x640 mm.
- These features indicate that the device is designed with a robust and functional structure to meet lighting needs.
